Branch meetings 2010-11

Welcome to the branch meetings & events section

Our branch meetings usually take place on the first Tuesday of each month at The Village Hotel, Bromborough, Wirral unless otherwise stated (see meeting venue tab for directions).

7th September 2010 - Gas Safety Register

13:45-16:00

Anyone carrying out gas work must have a Gas Safe Register ID card, if not, they are breaking the law.

Abrar will give an overview of how the register operates as well as the dangers that surround unsafe gas appliances. Poorly maintained, faulty or badly installed gas work leads to carbon monoxide poisoning the effects of which can be fatal.

Abrar Hussain Aziz - GasSAFE

5th October 2010 - ISO Standards

17:45-20:00

ISO standards provide organisations best practice guidance or management system models to follow to ensure HSEQ in the workplace.

Chris will explain the principles behind some of the ISO standards that impact on HSEQ professionals as well as an insight into how organisations go about accreditation to standards.

Chris Phillips - British Standards Institute

2nd November 2010 - An inspector calls

13:45-16:00

When the HSE decide to call in response to an incident it can be very worrying for those involved.

Richard will outline the due process that HSE inspectors will follow as well as discussing what preparations organisations should make in order to be prepared.

Richard Ollier - DWF Solicitors

7th December 2010 - Accident Investigation workshop

WORKSHOP BOOKING ONLY - Village WHISTON

09:00 -17:00

When a serious accident happens in the workplace how many safety professionals can say they competent to complete the investigation in a

thorough and systematic way.

Paul has spoken at many conferences on this topic and this one day workshop aims to give an insight in into the correct approach to accident investigation.

Paul Difford - Institute of industrial accident investigators

11th January 2011 - COMAH - Village WHISTON

13:45 - 16:00

The Control of Major Accident Hazards is a subject very much in the spotlight after Buncefield.

Mike will look at what the regulations require and how the Competent Authority (HSE) has embarked on a major programme of work to review how it operates the Regulations

Mike brown - Shell UK

01st February 2011 - Leadership in HSE/Behavioral Safety - AGM

13:45 - 16:00

Implementing proven Behavioral Safety processes in your company, can dramatically reduce the number of lost-time and minor injuries and their associated costs which detract from your bottom-line.

Helen will discuss how to be successful with a BBS program and how it must include all employees even the CEO if success is to be achieved

Helen McGriel - Akzo Nobel

March 2011 - TBC

Branch meetings provide a good forum for networking and helping members with their ongoing continuing professional development (CPD). A branch programme is sent to all members during August. Members are welcome to bring visitors/guests along to meetings.
