

CSP and CRSP to CMIOSH

IOSH Chartered membership for Certified
Safety Professionals and Canadian Registered
Safety Professionals

CSP and CRSP to CMIOSH

If you're a Certified Safety Professional (CSP) or Canadian Registered Safety Professional (CRSP), you've already proven that you've got high level credentials in health and safety and that you're passionate about keeping people safe and well in their places of work. CSPs and CRSPs can also become Chartered Members of IOSH, the world's largest body for health and safety professionals.

As the only organisation that offers Chartered membership to health and safety practitioners, we can help you achieve the highest professional standards. Chartered Members of IOSH enjoy worldwide recognition from their peers and increased employability.

When you join us, you'll get immediate access to a wide range of benefits and services, including:

- free technical information
- a free health and safety helpline
- free monthly issues of *Safety and Health Practitioner*, the UK's leading digital magazine for the health and safety industry (UK residents also receive hard copies by post)
- the latest tailored news, views and event information delivered direct to your desktop via our e-bulletins *Connect* and *Connect Diary*
- a cutting-edge Continuing Professional Development (CPD) programme
- professional development courses at discounted rates
- free or low cost events every year
- online forums for professional issues, careers and study support
- formal networks – active branches and sector-specific groups.

Chartered membership of IOSH represents the highest standards in health and safety. It's the mark of a credible, competent safety professional, and offers you unique 'best in class' status.

If you're interested in becoming a Chartered Member of IOSH, get in touch with the Membership team on +44 (0)116 257 3198 or email us at membership@iosh.co.uk.

As a CSP or CRSP, you have the choice of two different ways of progressing to Chartered membership.

Option 1

If you want access to the benefits of IOSH membership straight away, you can initially join as an Affiliate Member. Once we approve your application, you'll be transferred to Graduate membership. You can then use the letters 'Grad IOSH' after your name. Next, we'll invite you to complete an open assessment. Once you've successfully completed the assessment, you'll become a Chartered Member. You'll then be able to use 'CMIOSH' after your name and describe yourself as a 'Chartered Safety and Health Practitioner'.

Option 2

If you'd prefer to complete the open assessment first, you can register by mailing us at membership@iosh.co.uk. Once you've successfully completed the assessment, we'll invite you to apply for membership. Again, you'll join initially as an Affiliate. Once we approve your application, we'll grant you Chartered status.

Whatever path you choose, you'll need to send us a copy of your CSP/CRSP designation document and proof that you're currently meeting your continuance of maintenance or certification requirements.

You can use the same activities that you record for your CSP/CRSP re-certification as evidence to contribute to your IOSH CPD record, so you won't need to do any extra work. Simply register on the MyIOSH portal at <https://my.iosh.co.uk> and keep your development up to date on our online system.

If you want to know more about Chartered membership, email membership@iosh.co.uk or go to www.iosh.co.uk/membership.

Find out about our fees at www.iosh.co.uk/membershipfees.
