The IOSH Railway Group is organising an event entitled ‘Taking safe decisions and the CSM on risk evaluation’, which includes a tour of the Transport for Greater Manchester (TfGM) facilities.

TfGM will provide an introduction to safety risk management and give an overview of its facilities and operations. The Rail Safety and Standards Board (RSSB) will also be running a risk workshop.

What’s in it for you?
By attending this event, you will:
- gain an understanding of good safety risk management and how to apply this to your own organisation
- learn how organisations in Britain’s rail industry take decisions that affect safety
- receive an overview of the common safety method on risk evaluation and assessment (CSM RA)
- take part in a series of exercises to highlight industry learning on the practical application of the CSM RA.

In the afternoon, there will be a tour of the Metrolink control room and workshop facilities, organised by Transport for Greater Manchester. You’ll also have the opportunity to network with other delegates and speakers.

If you gain value from this event, you may record it in your CPD portfolio.

Who should attend?
This event is aimed at those working in the rail industry, predominantly rail managers and safety advisers.
